- Closing remarks from one of the Alliance's co-chairs on the path forward and next steps (5min)
Governor XX

Discussion Questions

- What is our vision for a national agenda on climate change?
- What are the specific priorities we as a community need to be focused on over the next 2-6 years? Consider both the rapid deployment of technological and policy solutions that are transformative as well as changing the politics around the issue of climate change so that we can focus on debating solutions, not reality.
- What is the role of state leadership, especially coordinated state action, in raising ambition nationally? What are the strategic opportunities where this coordination is especially impactful?
- What cooperation with this group can help deliver results, and how should we work together?
